#### Laravel Full Stack Developer

Aspiring Laravel Developer Intern with a solid foundation in Laravel's core principles and tools. Contributed to an ERP project with a multi-tenant architecture, and skilled in API integration with Vue.js, Vue 3, and Tailwind CSS for responsive interfaces. Focused on RESTful API development, problem-solving, and logic building, with a passion for Laravel best practices and making impactful contributions to a development team

---

## PROJECTS

### ShiftERP

ShiftERP's multi-tenant setup ensures secure, company-specific databases, with super admin-controlled access. Subscribers enjoy full features, including Customer Management, Inventory, Scheduling, and more for efficient operations.

<https://shifterp.com/>

### Serviceowl

ervice Owl is a software platform connecting clients and candidates with agencies through automated workflows and dynamic scheduling. Users (admin, client, nanny) access personalized dashboards with secure permissions to manage shifts, information, and services efficiently.

<https://www.serviceowl.ca/>

### Money Maker

MoneyMaker helps content creators secure and control access to their content with tools like emulator detection, VPN blocking, and geo-targeting. Users unlock content by completing offers, allowing affiliates to earn revenue while ensuring only legitimate access.

<http://themoneymaker.xyz/>

### TeamStar

TeamStar is a unified social media platform combining social networking, photo sharing, and professional networking, offering an experience similar to Facebook, Instagram, and LinkedIn in one app.
